

Jack
I hope that all is well with you and your family and business. They say that a "friend in need is a friend indeed". Believe me, I was a friend in need and you answered the call.

After working several days to pressure wash the Old Walnut Methodist Church - now owned by Madison Star Heart - 95% of the old paint was removed and the wood was raw and exposed. A church group was scheduled to paint the church. After their first day it became painfully apparent that, despite great effort, only a small portion of the church would be painted by them. Matthew knew about the situation and contacted Brian - Brian got your OK and on Friday Chyr Smith, Devon Payne and Brian Willis brought out one of your bucket trucks and went to work. About 35 gallons later the old 100+ year old beauty was painted. Your men did a wonderful job. I have nothing but the highest praise for their attitude, work ethic and ability. They cared greatly and truly wanted to do a job they would be proud of.

Your yearly contribution to
Neighbo - in Need shows your
kindness, care and desire to give
back to our community and is
greatly needed and appreciated.
However - your latest expression
of generosity will never be for-
gotten. The appreciation I have
will go to the grave with me.

I will personally tell you
more about this Church paint-
ing experience when I see you
but know that the Lord touched
people to make it successful.

From the bottom of my heart
I thank you.

Your friend,
Rick
